**CONSTRUCTION PROJECT FOR THE SCHOOL OF THE FUTURE IN  
MOGINCUAL DISTRICT**

**INTRODUCTION:**

APAI  
ASSOCIATION TO SUPPORT THE ELDERLY

Estrada: Novas Chaves (Social Directorate of the Suburban Administrative Post of Natikiri- City of NAMPULA

e-mail: [apai.npl@gmail.com](mailto:apai.npl@gmail.com)

**APAI overview**

"CREATE A SOCIETY FOR ALL AGES".

The Association for Supporting the Elderly is a non-profit organization with financial and patrimonial autonomy at the provincial level.

APAI was founded on September 3, 2000 in the city of Nampula and its Statutes were published on February 13, 2002, through the Boletim da República (BR) of the III series - Nº 7.

**Work experience and partnerships**

Since its foundation, APAI, has already implemented several socio-economic and cultural projects, having worked with the following national and foreign NGOs

- 1- French Embassy;
- 2- Embassy of Australia;

- 3- Embassy of the United States;
- 4- World Bank;
- 5- European Union;
- 6- International HelpAge;
- 7- FDC- Community Development Foundation;
- 8- Government of Mozambique

### **Intervention area**

The above association, intervenes in the following areas:

1. Social;
2. Health;
3. Education;
4. Agriculture;
5. Advocacy and Lobby;
6. Carpentry and crafts;
7. Small business.

### **Target group**

- Senior citizens;
- Children orphaned by parents;
- Widowed women.

### **1- 1- OBJECTIVES:**

APAI's main objective is to create conditions for improving the life of the elderly by reintegrating into the family and society

### **2- 1. Project name**

- CONSTRUCTION OF THE FUTURE SCHOOL

### **3- - Construction site / project implementation**

- At Mogincual District Headquarters

### **4- Reasons for Choosing the Site**

**5- -** The District of Mogincual has 108,333 inhabitants, 55,688 of whom are women. It also has 58 educational establishments from 1st to 12th grade, with 786 civil servants, in addition to traders and economic agents, and there is no school capable of occupying children from 2 to 5 years of age.

In this context, children are left without a job complicating the integration process when the formal school enrollment phase arrives. For this reason, APAI, in coordination with the local government, decided to

build a school for this purpose.

#### **6- 4. Justification of the Project**

- Give occupation to children from 2 to 5 years old;
- Psychologically prepare children to enter formal school;
- Assist the Government, parents and guardians and the general population in the education of young children;
- Contribute to the human development of the District of Mogincual.

#### **7- 5. Project Objectives**

- Technically prepare the child's education in the process of teaching and learning (PEA) of childhood;
- Diversify between traditional and formal education;
- Ensure a good diet;
- Create an atmosphere of fraternization among children;
- Promote exchange of experience among children, awakening their emotional intellect;
- Contribute to improving the living conditions of out-of-school children.

#### **8- Duration of the Project**

The project will last for 12 months (1 year). Bearing in mind that a building will be built  
Porch within three (3) months.

After the end of funding, the Project will continue through its own funds (payment of registration fees, monthly fees, sale of uniforms for children and other services such as copying, typing and printing documents, services that the district does not have).

The District Government has already identified a space and has trained personnel for Childhood Education, at this moment, there is a lack of financial resources for the materialization of the project.

#### **9 - Project beneficiaries**

The beneficiaries of this project will be children without school age (2 to 5 years old), that is, under six (6) years old. In an initial phase, 60 children will be enrolled, where the number may increase according to the conditions that are available.

**10- Indirect beneficiaries**

- Child caregivers;
- Ladies cooks
- Kindergarten Educators
- Treasurer
- Tailor and,
- Support staff

**11- VISION:**

Short and medium term vision

- Establish a bridge between primary (childhood) and formal education;
- Make society see that the child is not born as a clean slate;
- Facilitate the child's integration in formal education based on the knowledge acquired in the school;
- Create a culture of learning as an ongoing process.

**12- Long-Term Vision**

- ❖  Prepare the man of tomorrow, using the primitive steps of education, that is, attack the problem at the root
