

1- VISÃO GERAL DO PROJETO:

(Resumo das informações gerais sobre o projeto)

Mining project which includes, mining prospection, mining survey, mining development, mining and closure.

The mines is located at Gaza and Cabo Delgado provinces, Chicualacuala District and and Namuno District, and have a potential mining of Diamond, gold, tourmalines, ruby, and associate minerals. The valid licence is for the area of 19.056.12 hectares e 18.690,29 hectares, respectively.

The Mining survey has been done by the independent geologist, and produced a report and next phase is to start mining activity.

At the moment we are in procurement process for a partner with capacity to mobilize financial resource for equipment acquisition for mining activity such as for processing, excavaters, trucks,etc and infrastructure building at the site plant (offices, dormitory for the workers.

At the technical level is required to conduct more detailed study on geological mining for expansion of the mining activity, environmental impact in order to secure the mining activity is conducted according to the national and international low related to the mining activity

2- OBJETIVOS:

(Main Objectives of the project)

- Mining and selling of Diamond , Gold and associate minerals within technical and legal standards
- To ensure economical and financial rentability of the project

- Adding Value of the Mining products for the benefit of the Mozambique

3- VISÃO:

(Vision for Short, Medium and Long Term of the Project)

Long Term

To be a reference of the mining project which comply with the socio economic and legal standards, nationally and internationally.

Media Term

To be reference project in relation com the local community around.

Short Term

To be an example project on installation e in mining activity and bring Value added for the community, to the country and all stakeholders.
