

## 1- VISÃO GERAL DO PROJETO:

(Resumo das informações gerais sobre o projeto)

From long years, it be seeing that the Coastal Provinces (Nampula and Cabo Delgado) has a lot of sea food available and the interior Provinces (in this case Niassa) has a lot of Agricultural Products (that are recommended to grow on low temperature area), but there is a small problem on this distribution, it's not easy to find the Sea Products in Interior Province and also it's difficult to get quality Agricultural Products in Coastal Provinces and when the products are available for both sides the prices are so high and repel the costumer with a low capability of buying.

So this project pretend to eliminate this scarcity for both sides and practice an available price to make it possible to achieve a lot of people that are on need of this products but cannot afford.

The project will do fields of Agricultural Products in Niassa and take it to the Coastal Provinces (Cabo Delgado: Pemba and Nampula: Nampula and Niassa City), then from Coastal Provinces will buy from the fisherman sea products and take it to Niassa Province (Cuamba and Lichinga).The Project also will be working with some farmers close to the fields, as promotion and will buy from them to motivate them and to insure more products to be send all over the year to the Coastal Provinces as they has an huge scarcity of the products.

The **Agricultural Products** will be:-Potato, Carrot, Peas, Garlic, Green Beans, Beans, Broccolis, Cabbages, Pepper and Onion.

The **Sea Products** will be:-Variety of Fishes, Shrimp, Squid, Lobster, Octopus and Clams.
