

1- PROJECT OVERVIEW:

(Summary of general information about the project)

The present project aims to mitigate the social and economic exclusion of the most vulnerable layers of society, aiming to qualify them, promote citizenship, popularization of information technologies, financial education, and entrepreneurship.

It will ensure the use of digital technologies, good education, creation of new jobs, increased income, labor market insertion, and equal opportunities for a vulnerable social group.

2- OBJECTIVES:

(Summary of the main objectives of the project)

It will be based on this project that we will increase more and better training, guaranteeing equal opportunities for all Mozambicans.

Through the project it will become possible for socially and financially excluded people to have access and familiarization with digital technologies, develop a solid financial education and consequently create their jobs and increase their family incomes.

3- VISION:

(Short-medium- and long-term vision of the project)

Aiming to qualify, promote citizenship, popularization of information technologies financial education and entrepreneurship.

Short-term vision - facilitate the access of IT to the most vulnerable layers, financial education and create their own businesses.

Possibility to build useful knowledge for the beneficiaries to ensure their social and economic development.

Medium-term - respond to or reduce the social asymmetries that exist in Mozambique regarding easy access to the use of technologies, popularize the concept of financial education for all Mozambicans and ensure the much-desired economic independence for all.

Long Term - the project aims to promote the massification of ICTs, financial education, and entrepreneurship among disadvantaged young people in the Mozambican community, encouraging them to keep abreast of technological advances and good social and financial insertion.

The project aims to become an indelible mark in the country's history, aiming to change the mentality of adolescents, young people, etc., expanding their horizons, their dreams in the same way with others. This will ensure the use of technologies and the creation of various jobs and increased income for all young people.

The project aims to raise the level of employability, financial independence and guaranteeing the income of the families involved.
