

1- OVERVIEW OF THE PROJECT:

(Summary of general information about the project)

The project is a Digital Service called PLATCOM which, within the scope of innovation and modernization, aims to promote the transformation of Mozambican companies into digital companies, so that it is possible to check the legality of each one through consultations by systems available on the website and mobile applications. The project aims to:

- a) Register and execute the online provision of legal and fiscal conditions of private institutions, commercial and industrial companies.
- b) Provide digital resources for consultation of legal and fiscal conditions by state bodies, public and private institutions in the scope of acquisition of services, products, or relative goods.
- c) Train and qualify human resources, and provide support in the development of access policies, security, and credibility in the procurement of services and goods.
- d) Guarantee through the NUIT - Número Único de Identidade Tributária (Unique Tax Identification Number), the proper synchronization of legal and fiscal data to a single window called PLATCOM, with the data coming from the following public institutions in a modernized way

As to Tax Status:

- i. INSS - National Institute of Social Security
- ii. AT - Tax Authority
- iii. INE - National Statistics Institute

As for Legal Status:
