4.	CONSTRUCTION OF THE NYAMABWE MUTUALI RAILWAY LINE (Tete, Zambézia and Nampula)	Construction of a 440km strategic railway that connects the centre and north of the country which shall increase opportunities and facilities to drain the production of the Zambezi Valley including Tete coal, without going through other countries.	US\$ 2,080,000.00	MZ

5.	REHABILITATION AND INCREASE OF RESSANO GARCIA RAILWAY CAPACITY. Increase of Ressano Garcia Railway capacity, from 20 to 40MTPA	Rehabilitation and expansion of infrastructure; Increase of cargo transport capacity and mobility to and from South Africa.	US\$351,500,000.00	MZ
6.	BRT PROJECT IN THE CITY OF MAPUTO	It consists of the implementation of BRT system - Bus Rapid Transit in Maputo. The objective of the Project is to improve the conditions of the urban public passenger transport system in the city of Maputo.		MZ
7.	CONSTRUCTION OF THE RAILWAY LINE MAPAI- MASSANGENA- Dondo (509.05 km of extension)	It comprises the construction of a Mapai - Massangela - Dondo railroad, which should allow the inter link between the Limpopo and the Beira development corridors, as part of the North - South interconnection of the country.		MZ
8.	CONSTRUCTION OF THE NHAMAYABWE- Mutuali railway line (440 km long)	It comprises the construction of a railway line from Nhamayabwe to Mutuali, establishing the link between the Sena and Nacala Development Corridors, contributing to the North - South rail link.		MZ

9.	CONSTRUCTION OF THE UTI- Maniamba Railway Line	The project consists of the implementation of railway infrastructures, linking this Administrative Post to the Special Economic Area of ICU, where the dry port will be located.		MZ
10.	CONSTRUCTION OS THE RIBAUÉ RAILWAY LINE - Mocímboa da Praia	It comprises the construction of a railroad from Ribaué to Mocímboa da Praia, constituting the last section of the North - South railway interconnection project in the country.		MZ
11.	CONSTRUCTION OS THE BOANE - Techobanine railway and its deepwater port at Techobanine (Matutuíne district)	Construction of the Techobanine Railway and Port will be developed through a Public-Private Partnership, with agreed institutional arrangements between Botswana, Zimbabwe, and Mozambique, as stakeholders in the project		MZ

19- WATER AND ENERGY PROJECTS

No	COMPANY NAME	MAIN PROJECT	REQUIRED AMOUNT	COUNTRY
1.	ELCTRA – EMPRESA DE ELETRICIDADE E ÁGUAS			CV
2.	AEB - ÁGUA E ENERGIA DE BOA VISTA			CV
3.	MUISOL ENGENHARIA E CONTRUÇÃO, LDA.	Increase access to potable water in farms, residences, schools, and workplaces, solving fundamental needs that help make progress.	US\$ 21,600.00	MZ
4.	HYDROPOWER PLANT WITH CAPACITY OF 120MW	The main objectives are construction of hydropower Plant and Increase energy availability for industrial development in the area and security of supply to the region north.	US\$400,000,000.00	MZ
5.	BERUA HYDROPOWER PLANT WITH CAPACITY OF 25 AND 42 MW	The main objectives are construction of hydropower Plant and Increase energy availability for industrial development in the area and security of supply to the region center.	US\$120,000,000.00	MZ

6.	MASSINGIR HYDROPOWER PLANT WITH CAPACITY OF 25 MW	Construction of Hydropower Plant to increase energy availability for supply and security of supply along the line axis Lionde-Mapai, and industrial development in the north of Gaza Province	US\$67,000,000.00	MZ
7.	MALEMA HPP WITH THE INSTALLED CAPACITY OS 60 MW	Construction of Hydropower Plant and increase energy availability for supply and security and stability of Centre-North system along line axis Gureue-Cuamba-Liching.		MZ
8.	MOZAMBIQUE NATIONAL TRANSMISSION (SNT) – TETE-MAPUTO; CAPACITY: 3100 MW	The main constraint to unlocking all the energy power potential is the lack of adequate transmission infrastructure.	US\$ 1,870,000.00	MZ
9.	BENGA COAL THERMIC CENTRAL WITH CAPACITY OF 450 MW	It is strategic power generation project-Construction of Benga Coal Thermal Power Plant construction of electrical thermic centre and increase energy availability for supply expansion of the power supply, Maximize the usage of AC OTL and future 500kV HVDC TL Tete-Maputo, Chimuará-Nacala and Interconnector MOTA,MOMA and MOZA point of the interconnector-The Cataxa Substation Pre-feasibility studies concluded by the Gov.	US\$ 1,300,000.00	MZ

10.	CONSTRUCTION OF THE MAPAI DAM with a capacity of 6.000 million m3	Irrigation of 250 000 ha, water supply, energy production (75MW) and buffering of wave floods. Water storage) for consumption of populations of towns and districts of Pafúri, Chicualacuala, Mapai, Chigubo, Massangena, Funhalouro, Mabote and Mabalane.	US\$100,000,000.00	MZ
11.	CONSTRUCTION OF THE LUATIZE-LUGENDA with a capacity of 300 million m3	Water supply and energy generation. This Dam can boost the development of Nissan Province agro-industry, through related works of water and irrigation schemes supply.	US\$ 300,000.00	MZ
12.	CONSTRUCTION OF THE MUSSENGUE with a capacity of 400 million m3	Water supply and energy generation. This dam can boost the development of Nissan Province agro-industry, through related works of water and irrigation schemes supply.	US\$ 400,000.00	MZ
13.	CONSTRUCTION OF THE MEGARUMA with a capacity of 130 million m3	Water supply, irrigation and energy generation and flood control.	US\$ 180,000.00	MZ
14.	CONSTRUCTION OF THE LURIO DAM with a capacity of 600 million m3	Water supply, energy generation for industrial development of the North zone.	US\$ 600,000.00	MZ

15.	CONSTRUCTION OF THE MUTELELE with a capacity of 600 million m3	Water supply, energy generation for industrial development of the North zone.	US\$ 600,000.00	MZ
16.	CONSTRUCTION OF THE MUGEBA with a capacity of 200 million m3	Water supply, energy generation for industrial development of the North zone. Promote the development of Mocuba and Maganja da Costa districts.	US\$ 400,000.00	MZ
17.	CONSTRUCTION OF THE MUTALA with a capacity of 200 million m3	Water supply and energy generation. Boosting the development of the south coastal zone of Cabo Delgado.	US\$ 350,000.00	MZ
18.	REHABILITATION OF THE CHIPEMBE DAM with a capacity of 25 million m3	Water supply, irrigation, and energy generation	US\$ 125,000.00	MZ
19.	REHABILITATION OF THE REYUBUE DAM with a capacity of 120 million m3	Water supply and energy generation.	US\$ 250,000.00	MZ

20.	REHABILITATION OF THE NHANCANGARA DAM with a capacity of 60 million m3	Water supply and energy generation.	US\$ 160,000.00	MZ
21.	REHABILITATION OF THE LUJA DAM with a capacity of 4300 million m3	Water supply and energy generation.		MZ

20- WOODS PROJECTS

No	COMPANY NAME	MAIN PROJECT	REQUIRED AMOUNT	COUNTRY
1.	SERRAÇÃO MECÂNICA DE MAWAELA	Located in Inhambane province, Panda district has been operating in the field of large-scale forestry for the primary supply of medium and large civil construction projects. Currently, the sawmill processes three types of wood: mecrusse, umbila and chamfuta.	US\$ 310,376.00	MZ
